- ✓ Rating Summary

Cisco's latest offering in its series of unified conferencing solutions is the Cisco Unified MeetingPlace Express 2.0. This is an integrated voice, video, and Web conferencing solution targeted at the SMBs. TekPlus believes Cisco has done well to strike a balance between the features needed to be changed and the specs that need not be altered at all from its previous offerings.

**Tek Card:**                      **Date:** Aug 2007                      **Overall –** ★★★★★

### Cisco Unified MeetingPlace Express 2.0

- **Features –** ★★★★★
- **Performance –** ★★★★★
- **Ease of Use –** ★★★★★
- **Value for money –** ★★★★★
- **Support & Care –** ★★★★★

**Cisco Unified MeetingPlace Express 2.0 is loaded with most of the features covered by SMBs and hence is a very attractive solution for small and medium size organizations who want to embrace the benefits of Unified Communications. Though it lacks certain parameters TekPlus suggests that small and medium enterprises should consider it on their shortlist of Unified Conferencing solutions.**

Note: TekPlus star rating states the current opinion of the product as viewed by TekPlus. TekPlus experts take a number of parameters into account when analysing a product in the competitive landscape going forward. The scale of the star ratings are as follows;

★ Very Poor, ★★ Below Par, ★★★ Average, ★★★★ Good, ★★★★★ Excellent
